*The Center For Christian
Counseling, Consultation and
Training, Inc.*

The Center for Christian Counseling, Consultation and Training was founded and incorporated in 1981 and is a State of Wisconsin certified **Outpatient Psychotherapy Clinic** that is founded on Christian values. It was established in response to demand in the Madison area for skilled therapists whose beliefs and techniques are consistent with Biblical truths. The staff at the Center combines competence in understanding human relationships with a willingness to call upon the power of God to heal people's hurt and bring personal growth in the process.

The Center for Christian Counseling, Consultation and Training is also a State of Wisconsin certified **Drug and Alcohol Clinic**. The Center is a Christian Drug Treatment Program that incorporates the power of walking in faith with our Lord and Savior, and prayer as a primary means for recovery. Also, the use of biological, psychological, relational treatment and a strong foundation in God allows a person to gain the motivation needed to break the cycle of addiction or abuse and to walk the path of righteousness with Him at his or her side.
